

ART TREK

Pottery to Picture Conversation Starter

In my Art Trek lesson I learned about coil pottery. My piece of art is at school, but I wanted to share with you what I learned!

Now I know:

- Creating pottery from clay coils is a traditional method of many Native American, African and South American potters.
- Traditional coil pottery is smoothed on the inside to avoid seeds and other foods getting caught and to create stronger pots.
- Coil pottery can be utilitarian, a practical object used for storage, or it can be decorative and enjoyed for its beauty alone.

Have fun coloring the picture at home!
